

I pledge to do everything I can to Clean LA. I pledge to reduce, reuse, and recycle; to think about how I impact the environment at home, at school, at work, and in my community; and to look for creative ways to lessen those impacts. I pledge to work with others in my community and the surrounding areas to make Los Angeles County a leader in environmental stewardship.

- I pledge to find out what materials I can recycle in my community.
- I pledge to lead by example in my community by recycling.
- I pledge to recycle batteries, cell phones, and other electronic waste.
- I pledge to contact my elected officials to support my community's recycling programs.
- I pledge to tell five friends that recycling is the easiest thing they can do for the environment.
